## INTRODUCTION

This report is generated from the responses to one or more tests developed by Master™. The report does not include information given in a feedback session or from any other sources.

#### **ABOUT THE TEST**

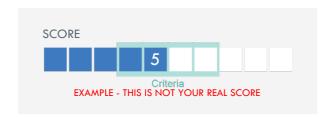

OPTO is a personality test that measures 8 Dimensions of personality which are essential to behaviour and performance at work. Each Dimension is comprised of two or three underlying Aspects. The Dimensions and Aspects are characteristics that individuals exhibit to a greater or lesser extent, and that are in themselves neither positive nor negative.

Each of the Dimensions and Aspects describe, relative to other people, the frequency or intensity of a person's feelings, thoughts, or behaviours. They are traits that exist on a continuum rather than as attributes that a person does or does not have.

The quality of OPTO is well documented and meets international standards for test quality.

## **SCORES**

The results of the test are visualised using an intuitive scale ranging from 1 to 10, with 10 being the highest. The scale is commonly referred to as a STEN scale.

#### **NORM GROUP**

The scores in this report are created by comparing the responses to the test with those of a representative group of test takers, referred to as a norm group. This allows for an accurate and practical understanding of the scores.

By considering age, gender, education, industry, and managerial level, the norm is representative of the group selected by the certified test user.

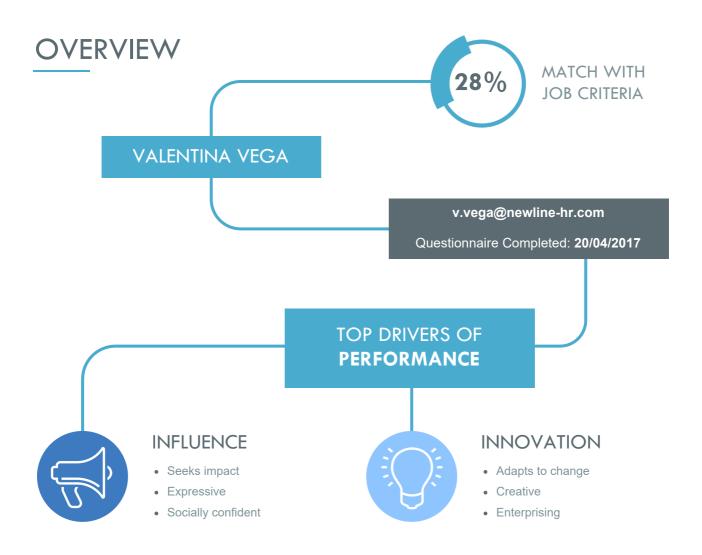

Selected norm: International norm

### **CRITERIA**

Team leader

VALENTINA VEGA 3

This person lets others lead the way, naturally engages in conversation, and feels comfortable in social situations.

High pressure at work will be perceived as challenging, and this person may get overwhelmed when dealing with stressful situations, and lose composure when frustrated.

This person can be hard to get to know and believes that trust needs to be earned, but is available for colleagues if needed.

This person prefers a calm work pace, sometimes puts off tasks, and is less driven by ambition.

This person is less bothered by disorder and prefers to let others pay attention to the details.

This person is likely to show compliance at work by upholding commitments and is less concerned about being straightforward.

This person is open to new knowledge when necessary and is less likely to be agile in solving complex problems.

This person can adapt to change, takes risks only when needed, and can support innovation by suggesting alternatives to the status quo.

When Aspect scores vary, parts of the summary may be too general. Read the meaning of the scores on the following pages for more details.
